

RED SEA
HOUSING SERVICES

**DESIGNED
FOR
SUSTAINABILITY**

A WORLD CLASS COMPANY FOR MODULAR BUILDING SOLUTIONS

Who We Are?

Since the establishment of our first subsidiary 4 decades ago, Red Sea Housing Services (RSHS) has become the largest and most advanced modular building solution provider throughout Middle East, Africa, and Asia. Our innovative building techniques and business spread is reflected through our diversified product portfolio and successful imprint across industry sectors. Whilst establishing our footprint in over 65 countries worldwide, we have actively embedded our presence and reputation as the leader in off-site modular construction.

How We Operate?

The ability of RSHS to coordinate between the different manufacturing facilities, shipping services and construction sites has made the company a leader in the field of providing comprehensive modular building solutions around the world. We not only provide our clients alternative delivery methods, but also ensure quick project delivery, leading to cost savings for our clients..

RSHS' management has a very high level of expertise in the field of manufacturing and building solutions together with an efficient multinational workforce. We aim to be a positive force in all the communities we operate, and strive to add value and seek to continually develop our people, our technologies, and our service.

Corporate Sustainability

RSHS' activities have a significant influence over, and potential impact upon, the economic, environmental and social well-being of the communities in which it operates. By recognizing, addressing and embracing these issues as a fundamental part of maintaining a sustainable business Red Sea International is committed to creating living environments that exceed stakeholder/client expectation through honest communication, quality construction and sensitivity to the environment via sustainable technologies and ecofriendly products, while fostering a creative, ethical workplace and a safe jobsite.
