# News from

apc analytics develops and manufactures **sampling, sample processing** and **analyzing equipment** for industrial use. Apart from planning, producing, installing and commissioning these **fully automatic samplers & analyzers**, apc analytics also offers **individual solutions for analytical problems.** The **equipment designed and produced** by apc analytics is based on a well-proven technology, more than 25 years of experience and is **used in the mining and mineral processing industries** as well as in **thermal power plants**.

Innovations

New Location	apc has moved to a new location! More space gives us new opportunities for bigger projects!
Turnkey Supplier	Full project responsibility for all parts (sampling, conveyance, preparation, analysis, support structure, E-cabinets and components, automation, etc.)
Sample Divider	Standard-conform mechanism consisting of metal sheets moving through the complete downdraft - with adaptable division rates
Sample Bottling Module	Automatically filling samples in bottles which can be stored or analyzed including: Airtight cover plate, RFID-tag, removing filled bottles while unit is running

Upcoming Events

Meet us at...

EXPONOR
Mining Industry Fair
Antofagasta, 15th-19th May 2017

ICCI
Energy & Environment Fair
Istanbul, 3th-5th May 2017
