Company

**Cintasa** is a family company,  
founded in 1973 and  
specialized on the design  
and **manufacture a wide  
range of conveyors  
systems.**

With own engineering, we design and adapt  
our equipment to the needs of our clients  
and to the many different  
sectors and markets.

We design and manufacture equipment and installations for:

- transport,
- elevation,
- storage,
- handling,
- dosage,
- weighing, etc.

## Strategy and Commitments

### Quality

In **Cintasa** our main objective is the satisfaction of our client, so we pay special attention to the **quality of our products** from the design to the manufacturing.

**Cintasa** is certified in ISO, which applies to the whole process and is renewed periodically. Also it has been rewarded with numerous awards related with the quality in **manufacturing and also in respect of the environment.**

### Mission

Be a leader company in conveyors systems, able to offer to its clients proposals of equipments with **own design** that fulfills all their expectations and ensure the growth of the company and the development of its workers.

### Vision

Being a company internationally recognized within the conveying sector, offering its clients **high quality equipment** to guarantee their satisfaction, always looking for a continuous improvement.

### Values

Our values reflect our identity as a company. In Cintasa we care about the **health and safety** of our employees, we are concerned about the environment and we acquire social, cultural and educational commitments in our area.

Resources

Our installations have an extension of 21.000 sq and these have been complemented with the most modern production machinery and technical resources.

We have the most **advanced technology**. Therefore we get a **faster, convenient and safe** manufacturing which affects directly in the competitive prices and the best quality finishes.

Engineering

**Cintasa** has own engineering and highly qualified staff. This allows us an **exclusive design** adapted to all needs with the reliability that ensures our brand.

In addition, in **Cintasa** we advise to our clients the best technical solution, finding the most profitable financial investment.

Commitment to **R & D** in order to improve our equipments and develop new ones, adapting to new market needs and destination countries.

**CINTASA**

**Cintasa** manufactures a variety of conveyors which can be adapted to customer needs. Depending on the characteristics of the installation, the product to be transported and their location, we provided a fully customized solution.

We design and manufacture both individual equipment and complete installations highly specialized.

## Conveyors

### TUBE PROFILES FRAME

■ Mod. TTL

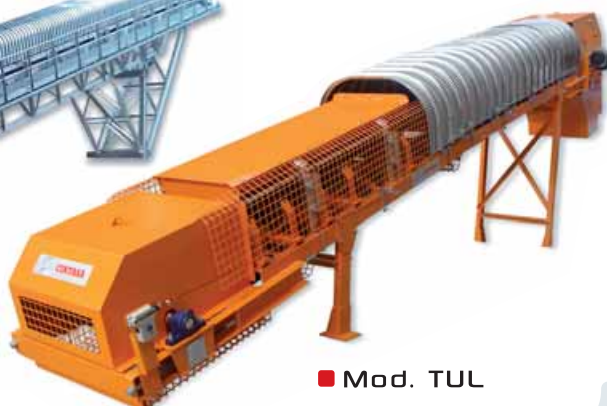

■ Mod. TTR

### LATTICE FRAME

■ Mod. TCL

■ Mod. TUL

## Conveyors

### BENDED METAL SHEET

■ Mod. TUC

■ Mod. TCP

## Elevators

### BELT ELEVATOR

■ Mod. TEB

### BUCKETS ELEVATOR

■ Mod. TEC

## Feeders

### BELT FEEDER

■ Mod. TUL-A

### APRON FEEDER

■ Mod. TAP

### VIBRATING FEEDER

■ Mod. VIBRATING

## Automation

### METAL SHEET BED

■ Mod. TCC

## Others

- Redler conveyors
- Screw conveyors
- Silos
- Hoppers
- Structures

### ROLLER WAYS

■ Mod. TCR
