

# VISION

## VRS (Vertical Rise Stairs) ... from an excellent pedigree

VRS Platforms are built by Equiptec, in our factory on Ford Road, Napier, New Zealand, giving the VRS programme the full benefit of more than 2 decades of experience in solving customer access issues. Of course the fact that we are still around is due to our loyal customers who know that Equiptec is fully focussed on their needs and expectations. These needs and expectations are highly valued...they drive our **vision**.

## Let us share a story

Back in 2009 Equiptec received a plea from the Mining Industry for a solution to a pressing problem...every new or different type of machine that needed servicing seemed to need a different ladder/platform/stair set. No matter how many they had, they always turned out to be the wrong size!

To illustrate their point, Equiptec was shown a yard full of battered looking ladders and stair units. The message was clear...they wanted fewer stair platforms to do more jobs...better.

The Equiptec design team tackled the challenge to achieve what seemed impossible...a short while later, the first VRS presentation was made to that mining customer. They were 'blown' away with the result. It was hard for them to believe that with just 2 models, they were able to access their entire multitude of servicing points on all of their machines.

As they said...the VRS was a game changer for them. Could it be for you to?

// The VRS concept has proved very reliable...and very popular. There are 4 main derivatives which now include 11 "standard" models...enormous possibilities with numerous optional packages...and the list keeps growing. VRS is the ultimate solution to myriads of access problems, from mining workshops to industrial factories/ warehouses, right down to the small office. //

What will suit your situation best? Read on and see...

## VRS Product Overview

Build your business on platforms you can trust

5

## Squirrel Series

**PORTABLE HEIGHT ADJUSTABLE STEP PLATFORM**

Shift it, lift it, climb it...all from one position

7

“ The VRS has solved numerous access issues with most of our mobile equipment. The platforms are quality built for the mining environment. ”

FMG – Cloudbreak Mine WA

## » Quality you can trust

Critical items are all built utilising pinpoint laser accuracy, and welded together by highly experienced welders in compliance with New Zealand and Australian standards to achieve a product that we, and you can believe in.

## » Market driven

It's what you asked for. VRS success comes from close consultation with clients in diverse industries to ensure we supply a product that is not only durable but functional and easy to use.

## » Track record

Your peace of mind, Equiptec has been around for a while. Long enough for our product reliability to become renowned.

## » Safety

Because it's paramount. Equiptec platforms increase both safety and productivity, whilst complying with all relevant regulations and engineer certification

The age old problem of having to use large array of platforms when servicing a variety of machinery (and then having to store them in between jobs) is solved with VRS. The multi-use, height adjustable platform is a truly versatile workstation.

## » Compliance

All units have been tested, meet and exceed the strength, stability and all other applicable requirements for the following standards.

- AS/NZS 1576 (Australia and New Zealand)
- ANSI-ASC A14.7-2011 (USA)
- CSA 211-12 (Canada)

Coming mid 2017...

**NZ  
MADE**

PORTABLE HEIGHT ADJUSTABLE  
STEP PLATFORM

**SHIFT IT, LIFT IT, CLIMB IT...  
ALL FROM ONE POSITION**

**Fast. Efficient. Safe.**

The VRS Squirrel Series brings the safety and efficiency of the VRS platform adjustability right down to the office, home, apartment building...or any other relatively confined space.

- Four deck heights from as low as 740mm, up to 1440mm
- Walk it from room to room...straight through the door
- The correct, safe handrail height at each level

**SQUIRREL SERIES**

SQUIRREL SERIES

**SQUIRREL**

# NIMBLE AGILE QUICK!

Whether you have a busy schedule involving many contracts on different sites, or you load (and climb onto) trucks with various deck heights, or pick from multi-height shelves...the Squirrel will give you a safe platform at every level... and fast.

Safety first! Safety bar at the rear of the platform stays out of the way for climbing on/off the deck and clips on easily behind the user.

Easy pull trigger rod gives a positive lock at each of the 4 deck heights, with a confirming 'thunk'

Easy loading with strong 'tie-down' points

Quick to shift around the site with the integral carry handles. And it fits into a lift, goes up stairs and through doors etc – no sweat!

Feel safe – the unique 'flip feet' provide extra stability when the deck is in use, but flip conveniently out of the way when you need to get through a narrow gap.

**SQUIRREL SERIES**

Simple to move...just like a sack barrow!

No more leaning over the front of a wobbly ladder! Work up against or side on to a wall

Very light...and very strong thanks to the effective design and the predominantly aluminium structure. And just like the Monkey...check out those super tough treads.

4 DECK POSITIONS

MODEL	Deck Height Range	Overall Width (flap feet out)	Overall Width (flap feet in)	Overall Length	Platform Width	Platform Length	Approx Weight of Unit
VRSQ 14	720mm to 1440mm	776mm	644mm	1090mm	510mm	565mm	56kg
	28.3in - 56.7in	30.6in	25.4in	42.9in	20.1in	22.2in	123lb

All options are retrofittable!

#### FRONT GATE

When you need front access, just specify the 'front gate' giving a lockable lift up gate allowing quick access to your deck at every level.

#### TOEBOARDS

Toeboards available to keep everything on the deck.

#### GO-BASE

The ease to maneuver is astounding and, the process to brake and unbrake all 4 castors on this cool chassis, is an effortless 1 second movement. And, it's all done from exactly the same position you are in when adjusting the height, or pushing the unit around... no need to move about!

BRAKE ON

BRAKE OFF

SAFE AND EFFICIENT FOR  
PAINTING BOOTHS

SAFE AND EFFICIENT  
FOR JOBBING WORK

SAFE AND EFFICIENT  
FOR HOUSE BUILDING

SAFE AND EFFICIENT FOR  
COMMERCIAL CONSTRUCTION

A worker wearing an orange high-visibility shirt, black pants, and yellow safety earmuffs is standing on a silver and orange scissor lift. The worker is reaching up to adjust a blue and black device mounted on a light-colored brick wall. The lift is positioned against the wall, and its base is on a concrete surface. In the background, a dark grey corrugated metal door is visible. The text 'SAFE, EFFICIENT ACCESS AT ALL LEVELS!' is overlaid in the upper right corner.

**SAFE, EFFICIENT  
ACCESS AT  
ALL LEVELS!**

**SQUIRREL - IN ACTION**
